

REPORT

The Department of Computer Applications, Mercy College Palakkad, in association with Avitis Hospital Palakkad, organized a Free Medical Camp on 19 January 2026 at Leisure Tower from 10:00 AM to 4:00 PM. The primary aim of the program was to promote health awareness and provide basic medical services to students, staff, and the local community. The camp offered various free health check-ups, including Random Blood Sugar (GRBS), Blood Pressure (BP), vitals assessment, and BMI analysis. In addition, participants were given an opportunity for free consultation with Dr. Anitha, a General Practitioner from Avitis Hospital, who provided valuable guidance on maintaining good health and preventing common illnesses.

The event was well-coordinated under the leadership of Head of the Department Sr. Jaisy Jacob M, with support from Staff Coordinator Durga J and Student Coordinator Abhina. The medical camp witnessed active participation and was highly beneficial in helping individuals understand their health status and adopt healthier lifestyles. Information about discounted laboratory packages from Avitis Hospital was also shared with attendees. Overall, the program was a great success, highlighting the importance of preventive healthcare and community service initiatives by educational institutions.
