DEPARTMENT OF ECONOMICS AND SOCIOLOGY

REPORT OF PALLIATIVE CARE

The Department of Economics, Mercy College, Palakkad, has been actively conducting a Palliative Care Programme in collaboration with the Sahajeevanam Palliative Care for the past twelve years. This initiative aims to create social awareness among students about the importance of compassion, empathy, and service to society, particularly towards those who are physically and emotionally suffering.

As part of the programme, first-year and second-year Economics students regularly participate in palliative care visits every Thursday. The visits are organized in coordination with the Sahajeevanam Palliative Care Team, which guides and mentors the students throughout the process. During these visits, students interact with patients who are bedridden or chronically ill, offering emotional support, spending quality time with them, and assisting the care team

in small tasks wherever possible. The programme provides emotional and psychological support to patients and their families, easing their sense of isolation. The experience helps students gain a deeper understanding of the realities faced by the patients and their families. By dedicating their time and empathy, students contribute meaningfully to society while enriching their own personal and moral growth. The programme stands as a testament to the college's enduring commitment to human values and social service.
