REPORT ON SKILL TRAINING PROGRAMME CLOTH BAG MAKING

The PG Department of Mathematics & Statistics in association with OSA organized a Skill Training Program on Cloth Bag Making with the objective of promoting eco-friendly practices and enhancing students' practical skills. The program was conducted on 17.3.2026 at OSA Block for PG Mathematics students. The training session was handled by Latha B Instructor, OSA Home Science department, who shared her expertise in designing and stitching eco-friendly cloth bags.

The session began with an introduction on environmental conservation and the importance of reducing plastic waste. The resource person demonstrated the step-by-step process of cloth bag making, including measuring, cutting, stitching, and finishing techniques. Students were also guided on selecting suitable materials and creating durable and attractive designs. PG Mathematics students actively participated in the hands-on training session and successfully created their own cloth bags. The activity helped in developing creativity, practical skills, and teamwork among the students. It also highlighted the potential of cloth bag making as a small-scale income-generating activity.

In conclusion, the Skill Training Program on Cloth Bag Making was a successful initiative that combined skill development with environmental awareness. It encouraged students to adopt sustainable practices and motivated them to contribute towards a greener future.
