Report on Seminar :- Conformational Analysis

Organized by Post Graduate and Research Department of Chemistry

A seminar on the topic "*Conformational Analysis*" was organized by the Post Graduate Department of Chemistry on 17th March 2026. The session was delivered by Ms. Sruthi M., Prime Minister Fellow from Indian Institute of Technology Kanpur. The seminar focused on the fundamental concepts and significance of conformational analysis in understanding the three-dimensional structures and stability of organic molecules. The speaker explained various conformations, energy differences, and factors affecting molecular geometry with clear examples, making the session informative and engaging. A total of 14 students actively participated in the seminar. The interactive nature of the session encouraged students to clarify their doubts and deepen their understanding of the topic.
