

Report on Industrial Visit-Luminar Technolab

The Department of Computer Science, Mercy College, Palakkad organized a workshop on **"FUNDAMENTALS OF ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING"** on 2.12.2025 at **Luminar Technolab, Infopark Road, Kakkanad, Ernakulam** to provide students with practical exposure to modern IT technologies. The workshop aimed to bridge the gap between theoretical knowledge and real-world industry applications, helping students acquire hands-on skills and insights into professional practices.

The primary objectives were:

- To provide hands-on training in emerging technologies.
- To enhance students' understanding of industry-standard tools and applications.
- To expose students to practical scenarios, coding practices, and problem-solving.
- To motivate students to pursue further learning and career opportunities in IT.

The trainers introduced students to the topic, explained its importance in the IT industry, and outlined the workshop objectives. Trainers demonstrated live projects and industrial workflows, highlighting the application of concepts learned. Students asked questions about industry trends, career opportunities, internships, and skill requirements.

56 of the students found the workshop highly informative, engaging, and motivating. They appreciated the practical approach, expert guidance, and opportunities to interact with industry professionals. They were really benefited by this session.
