

**REPORT ON DIGITAL LITERACY ENHANCEMENT PROGRAMME –
A COMMUNITY PROJECT**

A Digital Literacy Programme for children and women was conducted on 18 September 2025 by the Department of Computer Science, Mercy College, Palakkad, as part of Literacy Month celebrations. The programme aimed to enhance basic digital skills and create awareness about the importance of technology in everyday life. The event witnessed active participation from children and women from the local community. Faculty members and students of the department served as resource persons and trainers. The sessions covered fundamental topics such as basic computer operations, use of smartphones, internet browsing, online safety, and digital payment methods. The programme was highly beneficial in bridging the digital divide and empowering participants with essential digital knowledge. It also encouraged them to make effective use of technology for education, communication, and daily activities. The initiative was well received and appreciated by all participants.
