## **Report On G-Tec My Credits & Kerala Internship Programme**

The Department of Computer Applications, Mercy College Palakkad, organized the **G-TEC My Credits & Kerala Internship Programme** on **11 August 2026** at the Seminar Hall. The session was led by **Mr. Muhammad Anoob B., GTEC MyCredits Project Manager**, who introduced the students to the various credit courses and internship opportunities offered by G-TEC. The session provided students with valuable information about skill-oriented courses that can enhance their technical knowledge and career prospects.

The programme received an enthusiastic response from the students, with many expressing their willingness to enrol in different courses based on their interests. Courses such as **Flutter, Machine Learning (ML)** and other emerging technology-oriented programmes attracted considerable interest among the students. The interaction helped students understand the relevance of additional certifications and industry-oriented training alongside their regular academic studies.

As part of the programme, **G-TEC also conducted a lucky draw**, through which gifts were distributed to a few students. The activity added an engaging and enjoyable element to the session and further encouraged student participation. Overall, the programme was informative and motivating, creating awareness among students about opportunities for skill development, academic credits and internships.
