REPORT ON ONE-DAY WORKSHOP ON GENERATIVE AI TOOLS

The Department of Computer Applications, Mercy College, Palakkad, organized a one-day workshop titled “GenAI Workshop – One Day Workshop on AI Tools” on 2nd November 2026 from 10:30 AM to 3:30 PM at the BCA Lab. The programme was organized in association with LekTech Consultancies Pvt. Ltd., Ernakulam, as the industrial partner, with the objective of familiarizing students with the rapidly evolving field of Generative Artificial Intelligence and its practical applications. The workshop aimed to bridge the gap between academic knowledge and industry-oriented technological skills by providing students with exposure to emerging AI technologies and tools.

The sessions were handled by Mr. Muhammed Kais and Mr. Abdul Wasih, Professional IT Trainers, who introduced the participants to the fundamentals of Generative AI and its growing significance in the present technological landscape. Special emphasis was given to understanding Large Language Models (LLMs), their capabilities, applications and role in generating human-like responses and assisting in various tasks. The resource persons also introduced the concept of Computer Vision, explaining how AI systems can interpret, analyse and process visual information. The sessions helped students understand how these technologies are transforming different fields, including education, communication, content creation and software development.

The workshop provided an opportunity for students to explore the potential of various AI tools and understand how they can be effectively utilized for academic and professional purposes. The discussions highlighted the role of AI in simplifying complex tasks, generating creative content, improving productivity, supporting programming activities and assisting in problem-solving. The students gained awareness of the practical relevance of AI technologies and the importance of developing appropriate skills to adapt to the rapidly changing IT industry. The interactive nature of the sessions encouraged students to develop curiosity and explore the possibilities offered by emerging AI applications.

The programme was coordinated by Ms. Athulya A (Student Coordinator) and Ms. Durga J (Staff Coordinator) under the guidance of Sr. Jainy Jacob, Head of the Department. The collaboration with LekTech Consultancies Pvt. Ltd. provided valuable industry exposure and strengthened the department's efforts to integrate emerging technologies into students' learning experiences. The workshop was informative and beneficial, enabling students to gain a broader understanding of Generative AI, Large Language Models and Computer Vision while encouraging them to explore innovative applications of Artificial Intelligence in their academic and future professional endeavours.
